

## SEASON REPORTS FOR THE MONTH OF SEPTEMBER 1875.

*Hassan District.*

*Weather.*—Clear, with occasional light showers, and heavy rain with thunder and lightning on the 21st and 25th of the month, at Hassan. The heaviest fall of rain was in the Malnad Taluk of Manjarabad, at the head-quarters of which Taluk (Saklespur) 7 inches 10 cents were gauged; while the lightest was at Channaraypatna, where only 37 cents were registered. From the following comparative statement it will be seen that the rain-fall was short of that recorded in the corresponding month of last year, except in the Taluks of Manjarabad, Arkalgúd and Narsipur.

Localities.		Rain-fall.		Localities.		Rain-fall.	
		Sep. 1875.	Sep. 1874.			Sep. 1875.	Sep. 1874.
I.	C.	I.	C.	I.	C.	I.	C.
Hassan	By Engineer's gauge	3	25½	5	61½	Arkalgúd ..	0 90
Engr.'s Office	„ Pogson's do	3	40	5	58½	Narsipur ..	2 0
	Observatory at Dispensary	3	18	5	80	Channaraypatna ..	0 37
Belur ..	..	2	84	4	5	Attikuppa ..	3 0
Manjarabad (Saklespur)		7	10	4	76	Nagamangala ..	4 76
						Harnhalli ..	1 20

*Water-Supply.*—The large tanks in this District contain a supply of water varying from one to six months, and the small ones from one to three months.

*Lands.*—Lands assessed at Rs. 841—5—6 were taken up for cultivation during the month; but none were resigned.

*Crops.*—The seeds sown during the month were horse-gram, sávè, and maize in the Hassan, Narsipur, Channaraypatna, Attikuppa, Nagamangala, and Harnhalli Taluks. The prospect of the crops is not encouraging, as the paddy crops alone in the Belur and Narsipur Taluks, and those sown broad cast in the Manjarabad Taluk, are reported to be in fair condition; the paddy and all other standing crops in the remaining Taluks, including the transplanted paddy in Manjarabad, being more or less withered for want of sufficient rain. Ragi was cut in the Manjarabad, Arkalgúd, and Belur Taluks and sugar-cane in that of Attikuppa.

*Market.*—The prices of 1st and 2nd sort rice remained stationary; while there was a considerable rise in those of ragi, and horse-gram in the Alur market. The following statement will shew the rates at which these articles were sold, compared with those of the preceding month and the month of September last year:—

Articles.		Rate per Rupee.			Articles.		Rate per Rupee.		
		Aug. 1875.	Sep. 1875.	Sep. 1874.			Aug. 1875.	Sep. 1875.	Sep. 1874.
1st sort rice .. seers	14½	14½	14½		Ragi .. seers	42½	30	37½	
2nd „ ..	16	16	16		Horse gram ..	25	18	16	

*Health.*—Cholera appeared in the Channaraypatna, Attikuppa and Nagamangala Taluks; and the number of fatal cases up to the close of the month was 151, viz:—

*Channaraypatna Taluk.*

					28
				<hr/>	
				Total....	151

Besides the mortality above shewn there were 567 deaths from other diseases, viz :—

Fever 370, small pox 6, bowel complaint 73, suicide 3, accident 3, other causes 112; 567 or 718 in all, against 399 in the previous month and 446 in that for September 1874.

*Cattle.*—Cattle disease prevailed in all the Taluks of the District save Harnhalli, and the loss from all causes amounted in all to 2,911, against 2,442 in the preceding month and 1,888 in September last year.

E. SHAW,  
Offg. Dy. Commr.

*Shimoga District.*

*Rain.*—A few showers of rain fell in all the Taluks of the District, but the quantity of rain gauged in this month is less than the corresponding month last year.

*Crops.*—The standing crops are reported to be withering fast from want of water. Horse-gram is sown in some of the Maidan Taluks. Supari and cardamom are reported to have been harvested in the Nagar Taluk.

*Health.*—Five hundred and sixty-one cases of death are registered against 511 in the month previous. The number of births recorded during the month under report is 510 against 483 of the preceding month.

*Cattle.*—The casualties among cattle were 2,285, of which 178 were by wild beasts.

*Prices.*—Rising.

C. S. BLAIR,  
Offg. Dy. Commr.

*Kadur District.*

*Rain.*—The fall of rain throughout the District has been scanty. In the taluks of Banavar, Tarikere and Chikmagalur more rain is very much needed to revive the withering crops.

The following table furnishes readings of the thermometer and rain-fall recorded at the Chikmagalur Observatory for the past and present months as contrasted with the month of September 1874 :—

August 1875—	Thermometer at 9—30 A. M.	73·7	At 3—30 P. M.	75·4	Rain	1 inch 24 cents.
September 1875	" "	74·5	" "	73·7	"	0 78½
Do 1874	" "	72·11	" "	74·11	"	3 66

*Crops.*—Ragi, sware, horse-grain, navane, &c., were sown in the taluks of Banavar, Tarikere and Chikmagalur. Standing crops are dying for want of rain. Sugar-cane, green and black grams and jola in Banavar, sapari in Tarikere, sessamum, jola, gid-ragi, wheat, mustard, tadagani, coriander and cardamom in Chikmagalur are said to have been harvested. Supari in the Koppa Taluk has been damaged by blight.

*Health.*—The health of the District is indifferent; fever and ague prevail in the taluks of Banavar, Tarikere and Koppa. The number of deaths reported from all causes is 313 in this, against 311 last month, and 337, September 1874.

*Cattle.*—The condition of live stock is on the whole bad. Murrain of the "Dod roga" and "Kal-bayi jvara" types still prevails in all the taluks except Koppa. In the taluks of Lakvalli and Koppa, the mortality from wild beasts has been heavy.

*Mortality.*—Mortality from all causes amounts to 1,079 in this, against 625 last month, and 1,244 in September 1874.

P. KRISHNA RAO,  
Dy Commr.
